Welcome to our Spring newsletter!

"A flower blossoms for it's own joy" - Oscar Wilde

The Oxford Advanced Pain and Symptom Management Course © 2026

Our largest course is back with all speakers confirmed! The advanced course is a leading course for palliative care doctors, nurses and pharmacists.

We have maintained a freeze on our course prices, ensuring our fees remain as accessible as possible while upholding the quality of education our learners deserve.

"Amazing & professional. It reminded me why I love being a Palliative Nurse"

NEWCASTLE - 18th & 19th June | OXFORD - 9th & 10th of July
VIRTUAL - Available from 31st of July

Thank you!

Thank you for completing our website feedback form. Your input will help shape the updates we'll be making to the service!

The Newsletter

Teaching the Teachers, which began as a pilot last year, has already become one of our most **impactful** courses. It's influence is clear in our OxCERPC Stories series, where a delegate described how the pilot course boosted their confidence, reduced feelings of isolation, and helped them bring meaningful change back to their team.

... What I took away from the course wasn't just teaching techniques. I learned a lot about myself; my confidence, my strengths, the areas where I'd become a bit rusty, and how much I still enjoy learning. I left feeling energised rather than drained, which isn't always the case with training sessions. It reignited my motivation and made me want to keep developing. I truly felt inspired ...
